

Hello! Welcome to Doorhop, the application where you will save your vaccination tests and more documents in a safe and accessible way for when they are required.

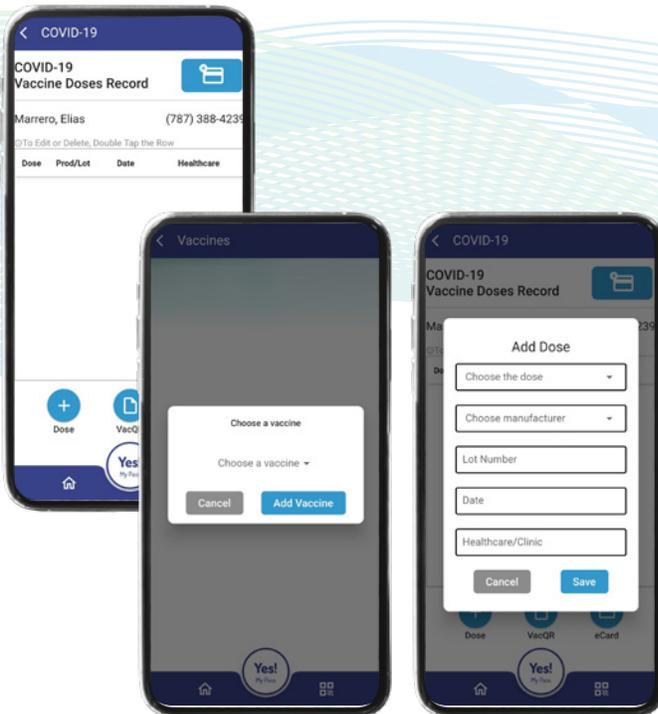

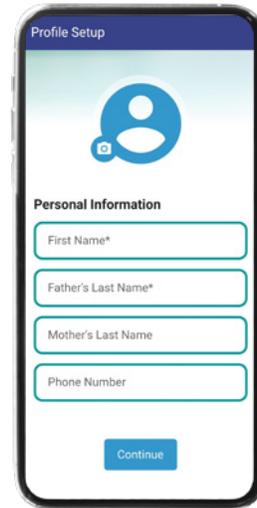

Download the App

Use the QR code or visit doohop.app. Make sure to download the latest version of the Doorhop app from either the App Store or Google Play.

To start using the application, follow the steps below.

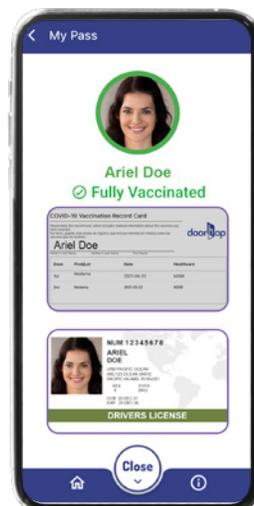

- 1 Create your Profile**
First, you must create your profile in the application with your email and choose a password.

Once you are in the application, add your name, surname, phone number and upload your profile picture.

- 2 Add your Vaccination Data**
Fill in the information of your vaccines in your profile, how many doses you received, the date, and the details of each shot so that the *Fully Vaccinated* status appears in the public profile.

- 3 Activate the Yes! My Pass**
From the home page, access the "Yes My Pass" button. There you must upload the image of your photo ID and the Covid 19 vaccination card.

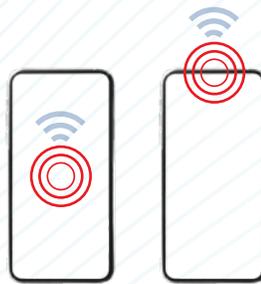

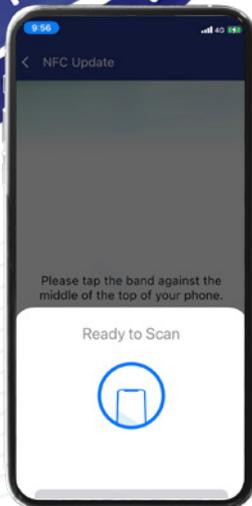

With this button, you can have quick access to show your ID and proof of vaccination quickly and safely on a single screen.

4 Program your Yes! Band

Since all the required information is stored safely in the application, it is time to activate your Yes! Band.

In the menu at the top of your home screen, press band set up, and you will receive instructions on where to place it.

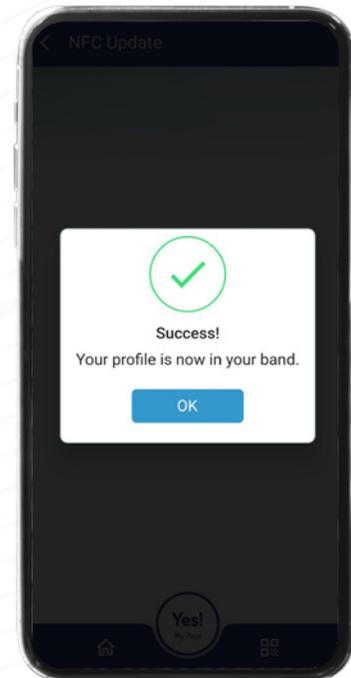

For android, tap it on the back in the middle of your cell phone. For iPhone, it is on the top back near the camera.

Android

iPhone

Once you receive the "successful" message, you can use your application, and Yes! Band everywhere.

You don't have a Yes! Band?

If you still don't have a Yes! Band, do not worry, you can get it at doorhop.app.

Now people will know that you are vaccinated by using your Yes! Band.

Remember to use your band in all places that accept Doorhop, just by tapping with your Yes! Band at the entrance.

If you forgot your band, the Doorhop application can show your vaccination profile "Yes my pass" instantly and securely.

If you forget your phone but are wearing the band, you can tap on any phone and show your vaccination credentials.

You can also tap your band on your cell phone to access your vaccination profile.

Ready! It's time to use Doorhop and experience easy and secure access with peace of mind.

Download the App

Use the QR code or visit doohop.app. Make sure to download the latest version of the Doorhop app from either the App Store or Google Play.
